Path to Orion:

Earthly Route to Peace with Justice

Where did History of our World begin, and where is it headed? We are confronting a Tribulation of Woe, and the Enemies of Life Itself have carried out their El-Anu Treaty to divide and conquer this world with human trafficking, slavery and racial strife. Where will it end? Let's see.

PREFACE

**No one can call themselves “educated”
who only reads One Book.**

Let us realize the differences between Life, which is a physical-process (in time), versus a holographic Reality a timeless Universe. In this realization that cognition must be able to span both time and eternity, individually, nothing I posit here will make much sense. So let’s look at it, because our societal problems HANG on the lack of this understanding.

This book’s thesis is that subjective matrices (ET philosophies) have intoxicated our societies, that Being IN an Eternal NOW (in “Heaven”) fundamentally differs from a being in a physical body in time and location.

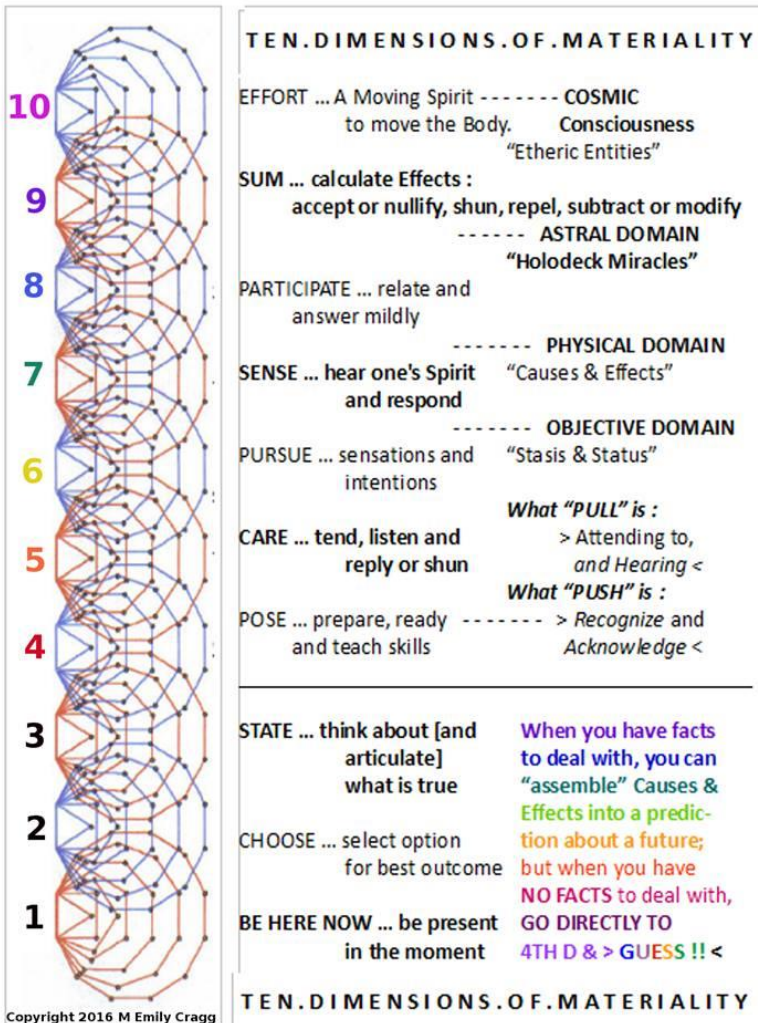

Physical Reality exists as cycles of reagents-in-reaction-in-time, series and complexes of chemical, biochemical and light-intervening processes jumbling outcomes-in-time to their own vibrations. Physical reality, causes and effects, always exhibit energy CHANGES, positive-to-negative; whereas in an Eternal NOW the hologram is without process; it simultaneously consists of a single uniform matrix of vibration or single operation of etheric vibrancy (a-drama-in-accord). “Change” is merely “opinion,” not objective nor a physical movement,

The Holographic Paradigm is real and consists of those dimensions in which Thought dominates materiality; but the Physical Paradigm consists of Processes-in-Time and Location which, if compromised unduly, terminate the ability of Life itself to occupy space. Humans must have a body that’s solid and works from biochemistry, or they’re not alive let alone conscious.

A heavenly doctrine of “rest in peace” is a dogma that Occult leadership teaches to our world self-consciously due to the fact that souls-preying-upon-souls is the common currency of galactic domination. The stronger **prey upon** the weak and yield resources; and alternately, the weaker **pray to** the stronger--those in power—to the One God or demi-gods or men **acting as** gods. But prey-ers and pray-ers all meet resistances and obstacles, whether In or Out of Time.

One must decide for oneself whether a description of white-light versus dark-matter existence is non-fiction or fiction; however, what is written down here is the

result of one soul's lifespan, read back from memory, with annotations and citations to verified sources.

TEN DIMENSIONS'

Precipitation of Matter : the Backstory

Let's review physical dimensions of human and Higher Life Beings. First dimension is a point, second is a line in space or line of thinking, third is a location; fourth is time. ETs who have mastered space travel have already all mastered time, 4th D, and they may live in Eternity, out of Time, yet they travel in dimension Three from location to location.

The first three dimensions are like the stem and leaves of a plant; there is no Spirit-blossom without stem and leaves, and there is no visual holodeck at 5th density without the stem and leaves of dimensions 1, 2 & 3.

Ecosystems exist because an original Designer carefully selected lifeforms that harmonized in an assembly of plants, bugs, birds & crawlers, to come an archetypal ecosystem reproduced across the universe. All seascapes are similarly constructed; grasslands are similar; rain forests are similar because the DNA structures that populate each eco-system were all originally designed to cooperate and reciprocate, like-for-like.

Physicality creates templates for what creators visualize, and what manifests CAN for a while occur in the Heavens as on the Earth; but briefly. But a body that can and does exist in time and process, may actually persist without time for a while merely as a manifestation, and that matrix-body will eventually fade away.

What initiates body-formation into Physicality of an Eternal Soul is always a sexual Conception. But eliminate 3rd dimension physical processes, and there is no way to hold living functions together as a whole. Thus, there is no way to “lift” Nature per se and “raise” up an Eternal 5th dimensional now made up of 3rd dimensional Physicality.

Take it all up “higher” than they already are where biochemistry cannot continue controlling body functions and you have effaced Life therein, because physical life only thrives between certain very limited frequencies, 2-to-15 Hertz. Higher frequencies block DNA replication. DNA replication only occurs with sexual conception, joining the spirit to biochemical processes.

Thus, move 3rd density beings intact into the 5th dimension and all you do is kill everything. Is this the desirable outcome? No, but it’s Occult doctrine that raising 3rd d to 5th d matrix is a popular idea, impossible in Nature.

Higher Beings have come here and taught 5thD doctrines here in the 3rd dimension because, it was thought, this teaching would give human-hybrids a “Don’t worry, be happy” outlook about what Cosmic Leadership is about, and so provide a head start for the Living who must deal with abductions and slaving operating under Orion Elohim Authority as “just business.” How so? As above, so below.

The El-Anu Treaty crafted after the Orion Wars, served to build “Galactic business” outside the boundaries of physical life itself. After all, simple Perfection is

boring after a while; but abductions and slavery do enable exchange between Dimensions for profit and prophets : mobilization, trade, exchanges, drama and culling from Physical to Subjective (Ascension).

Wars are “not just business exchanges between Dimensions.” In this galaxy the Lyran System experienced the first seeding of angelic hominids; and that society was destroyed during "the electric wars" 5.5 million years ago. Then there was a second seeding; and it was destroyed in "the thousand-years war." After that the "El-Anu Treaty" was crafted, an Agreement between some of the Fallen and ANU-Eloheim Races and the Emerald Covenant Races, the Christos Founders Races, that an attempt for the Third Seeding on this World would not be categorically opposed.

Warring stopped, but in return for ceasing the conflict, Annunaki who immigrated here by way of their Wormwood System into this sector of Space in which we live had to do their bio-re-genesis outside the Emerald Covenant, the stipulations for which were that no racial or physical bio-re-genesis development would be allowed whatsoever; that Races were/are sacrosanct with superior races and inferior races; with ideological purity and a hierarchical and bureaucratic system of influence that guaranteed top-down rulership. Notice this: the original Treaty required top-down Authority, no democratic nor republican representation necessary.

What they didn't count on was how their development and replication of designer diseases would bias the outcomes toward chaos and extinction, time-after-time. Even today as we speak, Fort Detrick, Mary-

land, is the hotbed where new diseases and viruses are developed by USA government covert operations' black budget as profit centers & cash cows.

The El-Anu Agreement was precedent for today's practice by Alpha Draconis, Orion Annunakis and Greys, to abduct and utilize humans and their genomes for their own DNA-repair. What they didn't count on was that They themselves would die from the diseases they propagated.

The El-Anu Agreement has only recently, under the Trump Presidential Administration, been rescinded, due to millennia of misery and woe that humans have and do experience from it, because Christos Founders were still insisting on racial and ideological purity of Hierarchy.

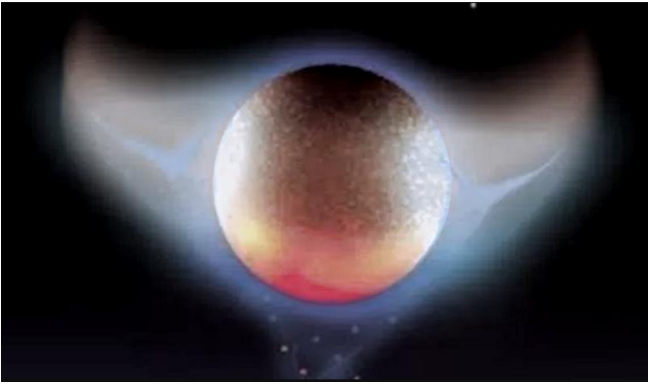

The way this insistence played out was, civil society based on Christos Founders ***cull non-conformist hybrids without regard to their pacific or toxic behavior***; there was until now (with installation of the Law of One Prime Directive [*Do NO harm*]) that no such thing as Tolerance for Race or Culture existed under ET (Greada (1954) or TauIX (2005) Treaties.

The Universe is slowly dying out from the diseases They developed as weapons against inferior Races. How ironic, the High Tech Races are sick to death from their own Creations. Same same here.

Who are the 5thD Orions, the Annunaki?

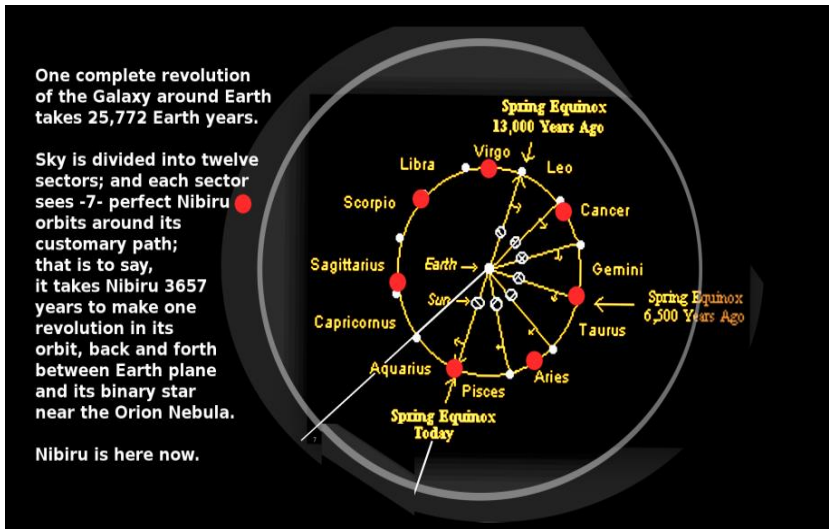

Annunaki, a relief sculpture depicted by Sumerians.

Digital image of Nibiru from a decade ago while it was en route here from its furthest point in Orion Nebula.

Nibiru is a mobilized multi-dimensional spherical planetoid having a huge swath of ice and water, a “wake” we would say if Nibiru were a boat. Its peoples are diverse, bred from many Races; but their primary gift is Reptilian telepathy and clair audience. Arriving upon Nibiru from many other Star systems, its “people” and its Monarchy are half a million years old. The founding King was King Anu, and his two sons [half-brothers] ruling over Earth have been Enki and Enlil, who were elevated to Angelic status after the Flood and became known to us as Satan and Lucifer.

As you may already be aware, our Milky Way Galaxy appears to move about the sky in a “precession” that requires 25,772 years to make one revolution. In that single revolution the planet Nibiru cycles through this area seven times, making “a week of years” during a single Galaxy revolution in its long orbit.

Satan & Lucifer operate from different theoretical viewpoints and timelines from the Planetary Sovereign of Tiamat/ Earth whose function is to promote and maximizes physical life here. Whereas the Sovereign’s agenda is ecological integrity, the Angelic agenda is purely social rather than physical, so Satan & Lucifer work to promote mental and spiritual balance and freedom from subjective domination.

Fifth Dimensional Occult Science teaches non-resistance to experience as in Hindu and Buddhist philosophy. Thus: “Close your eyes, relax, let every muscle of

your body relax . . . relax your feelings . . . “. “Don’t worry, be happy” teaches eternal innocence and acceptance of fate, destiny and karma—avoiding and not caring too much about what happens to the Other Guy. This is a directive that produces a love of Ease not the outcome of social survival.

Seers, gurus and priests teach a “Rest in Peace” metaphysics as opposed to a “Service to Innocence, Mercy and Forgiveness” theology because they’re still living in ancient Dispensations. Contemporary dogma does not serve humanity one bit, because it denies the reality of piracy, treachery and deceit. That’s where we find ourselves now, caught between doctrines that don’t work for us the People but only for the Elite leadership who believe They ought to rule absolutely.

Theology of Fifth Dimensional Annunaki

1. **“Creation is All One,”** as if Diversity in spirit and will has no point of departure, and all spirit-Souls experience Life similarly—**not true in 3rdD.**
2. **“Reality is an illusion,”** implies we don’t need to pay attention to *objective or physical* outcomes, results, consequences or effects of human behavior. **Corollaries:** “There’s no way to know what is true, and thus, Evil is just a point-of-view.”
3. **“Human body energy” is only self-generated or self-imposed;** thus affecting Others’ energy states by wishcraft or curse is not a moral issue.
4. **“Do what thou wilt,”** says, “There are no Rules; Fate, Destiny and Karma are naturally ordained”; that moral

Teachings which promote bad behavior--harmful, costly, cruel, wasteful, avoidant, neglectful, sloppy with lack of accountability for outcomes, are merely a matter of preference—of no real account, moment or merit.

5. **“Like attracts like,”** opposes Physics and Electronics wherein opposites attract. Thus, Darwinian “evolution” is nothing to oppose; nor, mere survival of the fittest. **Never mind, Justice or Fairness** or Compassion which do not exist in raw Nature, need not in society because Karma effects, “Opposites attract,” it accounts for all effects and outcomes in the long run.

6. **“Deceit is the natural behavior of predators.”** Double-dealing (*fraud & perfidy*), monopolistic protection racketeering (*censure of thrift*), robbing Peter to pay Paul (*communism*) and playing both ends against the middle (*divide and conquer*) have no moral consequences. These behaviors are consistent with mental freedom to choose.

7. **“Trying” is not real; one either manifests or does not.** Outcomes will always manifest by prayer, by wishing, expecting, influencing and/or conjuring.

8. **“Astrology” provides sufficient rationalization for outcomes** that human behavior need not be examined per se except where behavior disturbs the status quo.

9. **“As above, so below” means TOP-DOWN, Rule, Order, edict, doctrine, dogma must rule** society with policies, procedures, processes and practices that align with its top-down ideological bureaucracy. Low-status individuals provide no acceptable feedback or blowback to the leadership. There is no such thing as democracy or republic.

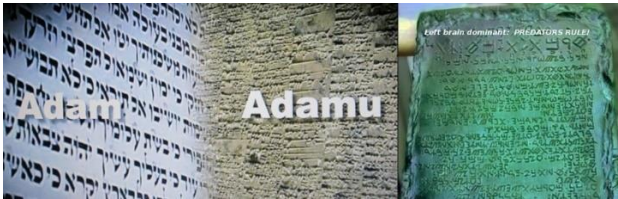

Back in the day before Hebrew Holy Law and the Lyran Ethos were (re)introduced into human society, these *were* the Rules of the Game.

Back in the Day . . .

Thus Christos *Eloheim* at Orion Central whose rationale for "Gods" to exterminate evolved souls (due to Diversity-in-Race alone) is that hybrids and dissidents are troublemakers; therefore, the balance of population must conform and experience Peace.

But the outcome was and is terror and tyranny; no one dares quibble nor question. In the Founders' model, whole populations were and are "taken out" whose belief systems are harmless--even 10th and 11th Density hominid Souls merely out of Preference of Founders for Racial purity. Racial purity? Impossible!

(See Anna Yates, *Voyagers II*, El-Anu Treaty, p. 48-51.)

At the time Earth's Planetary Sovereign's Annunaki prophet was Enlil (a name which is "YHVH" in Hebrew written backwards in Sumerian cuneiform script). Enlil joined with other Angelic Rebels to allow fundamental development and improve DNA-codes, YHVH had a

foundational Right to do so (a further interest from Creation's beginning); but He too accepted the idea that human Souls had to conform to ideology or be condemned. Freedom of thought was unthinkable.

What came about was that YHVH's angels had balked at slaughtering whole cultures at the 10th and 11th Density stargates. A Holocaust of the innocent! What for?

In-fighting began among the Angelic Corps; and it spread to Draconians who are predatory by nature, not pastoral. They had to kill for meat; but they refused to eat 10th and 11th Density humans; that was beyond the pale. Yet still, being condemned because of their refusal to carry out annihilation orders, they began to stonewall and enact policies of domination against Gate 11 & Gate 10 Rebels who felt they were in the right.

YHVH-Eloheim commissioned high Council (now called "Ancient of Days"), the ELI-Eloheim, asking for relief from Draconian raids. The High Council returned, "You are just as out of control as Draconi. Sit down and let us settle this." (*Ibid.*, pages 55-62)

YHVH's decision to diverge from Christos Founders' doctrine occurred when He realized an alternate Life path needed to be created--NOT out of culling non-conformist humans but by ordering behavior according to Law and only cutting off truly and incorrigibly harmful Souls among humankind.

YHVH's plan was (and has been) a new paradigm in favor of consenting to law over racial and/or ideological pride. And this new paradigm was summarily dismissed by the High Council even though YHVH the Creator was

acting in His primary capacity to evolve hominids in a new direction—a right and privilege He enjoys as Galactic Sovereign until He retires from service.

As history has been written, YHVH's plan was designed to weed out genetic weaknesses and character flaws of Annunaki-cross-bred humans until only those who were obedient and biddable to harmless behavior remained to 'inherit His Covenantal Sovereignty over this world lying wrecked and broken in the Abyss under Sirius from the collision with Nibiru some 78K years ago (to which Sumerian cuneiform tablets testify).

Under Enlil's supervision of Law a dualistic reality was allowed in which humans explore choice and have free agency to follow a 'plan of salvation'. 'Degrees of glory' were/are offered—a belief system model of Ascension that streams humans after mortal death into various levels of responsibility.

As such, this plan does not guarantee everyone's redemption at death. Individual Souls less or disobedient are denied access to further endowments, thereby sorting the gene pool and giving precedence to those who most advance a more civil lineage and agenda of shared immortal relationship. But at present, a state of imputed immortality has to be sustained artificially until a human hybrid can advance enough to achieve the 'bardo' state (the Buddhist 'blue plane') of eternal life naturally, through 'bliss' or ecstasy. (*Ibid.*, page 251).

Enki has been YHVH's contact in the Annunaki system, a clan-member whom He trusted who also has intentions toward Dominion over this planet. By

contrast—in Enki's mind—eternal existence consisted in play—not in the drudgery of husbanding errant populations of wannabe's. Thereby, Enki preferred and wanted shortcuts to improvement.

Since NO genetic Diversity-of-bloodline was permitted under the One World System of Enki, he had to insist on a layered hierarchy with rigid stack-ranked caste system run on centralized-currency, with outcasts subject to being culled, imprisoned, starved, exploited and scapegoated. Even now, Spiritualists teaching Ascension versus Legalists teaching Behavior-leading-to-Salvation were and are to this day at loggerheads.

Teaching 5thD Ascension dogma to 3rdD humans, it was thought, would give human leaders a head start in pleasing Etheric overlords, and abductions and slavery were seen as natural results of “Karma from previous incarnations,” rather than as threats to public civil safety. But teaching Complacency worked ONLY for the Elites and economic parasites--not for peoples, nations, cultures and tongues working to master and sanctify their own families, settle relationships in Law, broaden their command of skills and eternalize their identities.

This world has seen leadership from one millennia to the next speak only to high generalities, ontologies and liturgies of Peace—which 5thD objectives speak as affirmations of Harmony, Truth, Justice, Fairness Mercy, Compassion and Love; yet all the while there has been ***a two-caste system of Superiors versus Inferiors*** at play in which few bloodlines dominate everything. To wit:

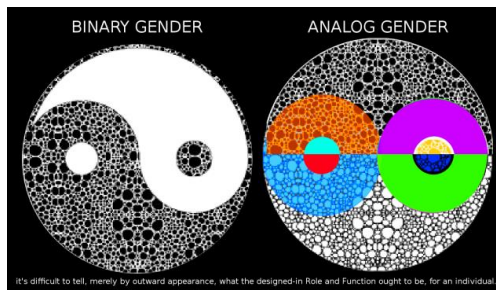

If you only do what you've always done, you only get what you always got; what's insane is doing the same thing over and over and expecting a different result.

(If one's prayers don't seem to be going anywhere, there's something to look into subjectively, to find out why this is so.)

Gender Relationships Among Annunaki.--

When Annunaki arrived here 450K years ago, they practiced strict binary gender roles. However, they encountered Indigenous peoples here who recognize and acknowledge more than two genders, especially Island tribes and in North America. There the belief was socialized that to maintain harmony, there must be a balanced interrelationship between the feminine and the masculine within the individual, in families, in the culture, and in the natural world.

The irony of Annunaki social memes played out as fights and conflicts embroiled in, dysfunction in marriage and the helpless role of women in their society, even then. Although they married for eternity, their society was filled with rape, illegitimate progeny and divorce. *The Lost Book of Enki* is full of their personal and intimate struggles and inability to get along together.

The memories I have as *Ereshkigal*, sister of Utu and Inanna, daughter of Naanuur , granddaughter of Enlil, wife of Nergal [son of Enki], mother of Ningishidda [by Enki] was a struggle very similar to today’s chaotic social routine in which one standard exists in theory, but something else works out in practice. So it’s no wonder to me that things went south very quickly in the Garden of Eden.

Earth’s Hyper-Dimensional Story 450KBC

Sumerian cuneiform records go back nearly half a million years; however, academia only recently has begun translating and informing us all of our early human history because academia chose to follow the Darwinian evolution path to history, blotting out everything until six thousand years ago.

The 6000-year old “Bible” that comes down to us from 4th Century Church fathers who established the present canon tells a tiny fragment of our world’s true story, a summary crafted to bind people ideologically.

Everything occurring before the explosion of Tiamat (which occurred sometime between 78-52,000 BC) was socially obliterated, and every previously validated primary record over a period of 600,000 years has been left out of today's official history. There are a couple of exceptions : *Sumerian cuneiform tablets*, the *Oahspe* and *Voyagers II* by Ashayana Dean.

If one merely looks at cave carvings & paintings, stone technologies, monoliths, petroglyphs and pyramids in every continent and most nations, one confronts engineering on a scale even today unmatched in its sophistication. So the argument that history begins 6000 years ago would be just plain silly if not for the fact that, "a day is as a thousand years and a thousand years is as a day," a principle that lets us into the fact that Physics also controls our perception of physical process of Time.

In the Sumerian Kings' list the ancient Kings were listed along with fantastic tenure, each King being credited with thousands of years of Administration. But in the Hebrew Scriptures, those magical numbers ended promptly after the Noachian Flood. It has been left to human efforts at dating to determine the exact span of centuries since Adamu was genetically manifest, since the destruction of Tiamat (78K ago) and the Noah Flood which we estimate was about 12,570 years (half a galactic year) ago.

Zecharia Sitchin and other translators have brought Annunaki history into present day awareness, going back to the beginning; its dissemination is becoming public knowledge due to the Sasha Lessin, PhD., web-site, "Enkispooks.com." Lessin breaks up the many Sumerian

tablets into stories for the public to glean and know, and his work helps us realize why untrammelled Elitism and Classism don't work out in our contemporary civil lives.

Anglican Bishop Alexander Hisslip's 1858 exhaustive exposition, *The Two Babylons* (get it at Amazon.com) traces Annunaki culture from Sumer and Babylon through the ages into all the governing and spiritual hierarchies of our known world today.

Most people today do not realize the Bible's Hebrew Testament Covenant of the Patriarchs Abraham, Isaac, Joseph, Jacob et al., was extended and taken to the British Isles in 583BC by the Prophet Jeremiah when he left Israel with King Zedekiah's two daughters, Teah Teph and Sophia, and the Hebrew Royal Line was re-established in Tara, Cork county, Ireland after the sacking of Jerusalem in 586BC. This was nearly 600 years before the birth of the Christ [Yeshua].

A free copy of the Hebrew Holy Law, a Summary, is available at <http://www.holyconservancy.org/2728.htm>

Next, the *Oahspe* is an historical version of the Covenants of Jehovih, 900+ pages, indited in the 1880s by an American dentist. And this book corroborates the Bible and the Book of Mormon.

The Urantia Book, A Revelation, God and the Universe Density (in which "Yahweh" is God), was published in the 1930's, some 2069 pages describing the Galactic and Universe hierarchy in which the El Anu Treaty exists.

Israel today is not the Monarchy of Judah; it is a parliamentary democracy set up by the British Common-

wealth. Its leadership comprise 80% Ashkanazi, 20% Semitic peoples, and they adhere to the Babylonian Talmud—not the Hebrew Torah.

Written anonymously, the ***Protocols of the Learned Elders of Sion*** is a playbook for modern predatory governance and ideological Gaming coming out of the Zionist-Illuminatus. The dominant teaching in this monograph is to teach Peace and Happiness and Prosperity to working people in middle class Masonry and New Age councils, avoid teaching moral behavior, and dominate Law by influence-peddling in secret.

A free copy of the Protocols is available at: <http://www.holyconservancy.org/protocol.pdf> , consisting of 46 pages to print landscape orientation.

Carol Quigley's, ***Tragedy and Hope, a History of the World in our Time***, follows the infiltration of Occult and Illuminati power bases into world governance, industry, academia and the Press. It is a recognized account of conspiracy governance.

Howard ***Zinn's Peoples' History of the United States*** is quite candid about corruption of Elites; and in its rendering of history, we find that the Indigenous peoples with natural histories knew and understood Right from Wrong sometimes better than more civil cultures did, even where the practice of ritual sacrifice was explicit. Further, the founding principles of the 18th century republic were given to them by the Iroquoi Tribe.

From this small collection of serious volumes, one can glean and synthesize a somewhat coherent history

and then watch contrasts surface between official hierarchy versus covenant morality (in behavior).

Questions for History to answer :: How and why did conflicts come up? How did Hierarchy get mixed up with Covenant-keeping? Why today do bureaucrats teach a metaphysics of transhumanist and mechanist substitutes for Karma and manifest Destiny and Secular materialists preach amorality over moral accountability? Effects on society of these two ventures into mercenary behavior have, of course, been catastrophic.

My own synthesis of these accounts for the benefit of children, is published at Amazon.com,

Come Let Us Make Man in Our Image: We Humanity Are More than We Knew : Reviewing Human History of the ET-Annunaki Intrusion

In Monarchy, God brings humankind to a model of civil governance distinct from the ET-Annunaki model, the model that became dominant from Sumer until our day, even in corporate culture. It happens then, that the wars the Peoples struggle against are that of Secrecy versus Open Source truth with candor.

Interdimensional Cognition.--Despite talk of Omni-this and Omni-that relative to what “higher dimensionals” can know, they do not know how to tie shoe laces, what it’s like to be constipated or what it feels like to sneeze. There is in fact only a relatively small range of perceptions and concepts which 3rdD’s share with 5thDs and above.

Basically, whatever is going on in physical senses, time and location is difficult for an Etheric or Cosmic Soul to grok because They live in their heads. Ideas are what they know for sure in the forms of: ideology, dogma, doctrine, policy, procedure, practice and Glory (which is like Credit or a bank balance of Ideas).

Let's work from some experiences I had with "God." The first one I noticed Time itself was when it was relative to my meditation and prayer life. I prayed for something to happen "soon."

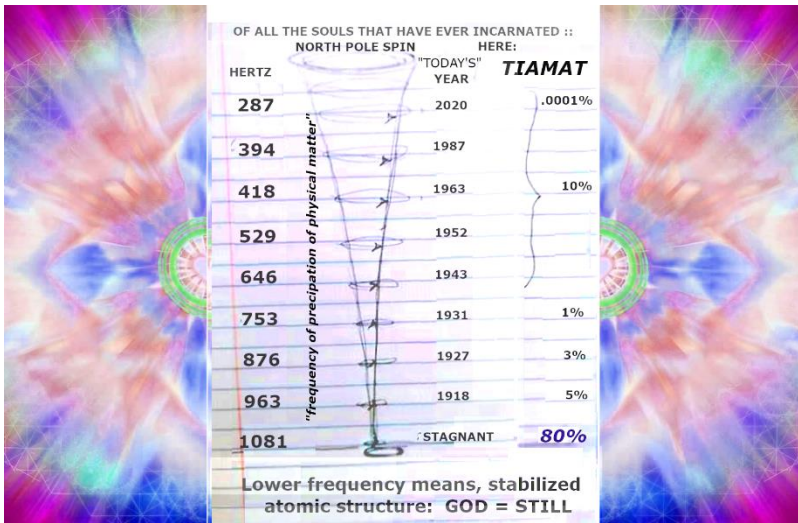

There is NO sense of "*when*" in prayer; there is only "now," because Those who have mastered Time live in an eternal "NOW." The way this plays out is, when we pray about a situation and *ask when* it can be resolved, what comes back is, "What does **when** mean? The Astrological Clock and an ETERNAL NOW is all we have here."

"Where" is just as iffy, because Higher Minds don't have set locations either. The best they may be able to do with clairvoyance is to visualize one's face and/or hear one's fervent thoughts, so a Being trying to locate, recognize and identify just one 3rdD human is truly scanning to look for a needle in a roving haystack.

Prayers about human life are not easily interpreted when no common referents exist, so "God" or the Virgin Mary or Angels or "Saints" have to get to know us (cognitively) as individual Souls pretty well to connect us to our thought-prayers, let alone, to respond. This is why persisting in prayer is vital, whether one is Covenanted Jewish, Christian or Other. A nearly constant stream of

thoughts and ideas in prayer is required to cement the mind-link between one human and one Cosmic Patron.

Reception of Cosmic Thoughts is inversely related to the governing Schumann Resonance of this world, due to limitations on receptivity caused by electrical overload of the matrix. The higher the Schumann Resonance the less Cosmic mind-sharing can be effected.

In Annunaki cuneiform, *Oahspe* and *Urantia Book* models, “**God**” *operates by hierarchy*, top-down only. All directives sift down from Elites.

By contrast, in the Bible’s voluntary Covenant (and there were six in *Torah* and New Testament and mirrored in *Oahspe*), God operates by “consent of the governed,” (*Exodus 19:8*) a holistically different model

from either Angelic corps or Annunaki culture composed of monolithic hierarchies and political ideology.

Whereas Creation is gorgeous and Indigenous Peoples acted then and still act out of respect for the sanctity and sacredness of Life, what has been constructed as human society today has become a squanderlist of dead zones and industrial waste dumps. Rather than secure and maintain our environment, a top-down industrial hierarchy poisons the air, water, land and seas with toxins and radiological waste over the objections of children, parents and elders.

“God” promised sanctity, prosperity and Peace; but time and again, social treaties have intervened under the pretext of “superior and inferior races” needing to be equalized by war and utilizing as legal justification the “official Executive Orders” enforced upon the unwilling.

So perhaps the real war is between the social model hierarchy with its secrecy, specialness elitism and occult dogma versus a natural acknowledgment of Divine Instruction characterized by Natural Law and social models based on harmless behavior. And perhaps top-down Occult ideology taught—not in church but in secret covens of wishcraft, influence, power-relations—these comprise the very threat from which we must escape as Noah escaped being terrorized by Nephilim, as by boat.

We learned a little bit about ET relations in Church—in the Books of Genesis, Enoch and Jude which report and imply ET experiences without going into detail. We have been led to understand our geography is unique—not a reflection of other (spherical) worlds—in

Genesis—that our world has four corners and a firmament above. This is not the official version corporations teach us.

Funny that business should get caught in mythologies and fables. Funny, that academia teaches theories, ontologies, taxonomies, not facts, just as secret societies teach myths and fables calling them Wisdom.

But Covenantal Faiths follow the Enlil path, and teach behavior. Their doctrines and thought-scapes differ; basically they teach that all humans are flawed and must learn to improve in relationship to all others. And the method of improvement of the Soul is self-sacrifice, generosity and service to Others—the antithesis of Hierarchy, which teaches top-down advantage.

My relationship with God YHVH has been transcendent, which is to say, He has changed me in every way imaginable from who and what I used to be and how I used to be. God’s “still small voice” has an unmistakable tone; and it is said He cannot be tested nor does He test anyone, so He is trust-worthy—not playing a simulation game on me.

“God” is a title and not a proper Name, so when it was said, “We shall make man in our image according to our likeness” it speaks in plural, as if to Annunaki who take responsibility for hybridizing Neanderthals with their own semen.

Indeed, the record says fallen Angels out of their place impregnated many Races (Genesis chapter 6), and Annunaki principals crossbred with Indigenous [but White] Neanderthal women 208K years ago (Sumerian

tablet history) to produce hybrids who would mine gold in South Africa until the Flood came.

The Angelic hybrids were too physically large to be supported in human society here, known as Nephilim. They also crossbred with simians and bred Bigfoot, also a telepathic, non-verbal hominid.

HUMAN COVENANTS of YHVH

Under Annunaki Conquest

Gen 1:26 Let US make man in OUR image, after our likeness: and let them have dominion over the fish of the sea, and over the fowl of the air, and over the cattle, and over all the earth, and over every creeping thing that creepeth upon the earth.

COVENANT 1: Gen 2:15 And the LORD God took the man, and put him into the garden of Eden to dress it and to keep it.

COVENANT 2: Gen 9:15 And I will remember my covenant, which is between me and you and every living creature of all flesh; and the waters shall no more become a flood to destroy all flesh.

COVENANT 3: Gen 17: 10-16 You and thy seed after thee; Every man child among you shall be circumcised. As for Sarai thy wife, thou shalt not call her name Sarai, but Sarah shall her name be. 16 And I will bless her, and give thee a son also of her; she shall be a mother of nations, kings of people shall be of her. (Abraham also had to keep records of his progeny while he wandered over the land: literacy!)

COVENANT 4 LAW: Exodus 19:8: And all the people answered together, and said, All that the LORD hath spoken we will do. And Moses returned the words of the people unto the LORD.

COVENANT 5 DIASPORA: James 1:1 : James, a servant of God and of the Lord Jesus Christ, to the twelve tribes which are scattered abroad, greeting.

COVENANT 6 KINGDOM: Matt 24:14 : And this good news of the Kingdom shall be spread to all the nations, and then the end shall come.

COVENANT 7 God's Sabbath: Heb 4:9: There remains therefore *a rest* for the people of God" (verse 9). We have yet to achieve God's Rest.

Human history from Sumerian records going all the way back relate the gifts in skill and resources with which Annunaki principals endowed their charges:

From 11-10,500BC, the gods revived Sumer (after the Flood), taught humans bronze and brick technologies, built a new spaceport in Sinai and renewed Earth's crops and beasts. "Suddenly and without gradual perpetuation," the gods made humans into farmers, so agriculture "spread all over the world from the Near East mountains and highlands." The gods gave wheat and barley, then millet, rye, spelt, flax (for fibres and edible oil), onions, lentils, beans, cucumbers, cabbage, lettuce, apples, apricots, cherries, pears, olives, figs, almonds, pistachios, walnuts. They taught weaving fibre into cloth; making flour, bread, porridge, cakes, pastries, biscuits, yogurt, butter, cream, cheeses, beer and wine. Settled communities grew, and the gods gave domesticated dogs,

geese, ducks, sheep, goats, pigs, horned and hornless cattle for hides, meat, milk and wool. ... Ninurta introduced plows; first humans pulled them; then cattle. With Enki's new grains, they boosted food-growing (S. Lessin, *Annunaki Gods No More*, 2011).

The first of the Annunaki hybrids was named Adamu, with successors begat by Neanderthal women. This is why women today have no trace of the male xy-chromosome that males have.

And as they began spreading out and growing in numbers and the need for labor increased, Annunaki went into the mountains or neighboring village and caught slaves. All ancient cultures in the world practiced slavery. Nothing has changed except the treachery of the slavers seeking gold and slaves whose human traffickers operate under Laws of Commerce (Tellingier, *Slave Species*, 217-8).

In Sumerian records, Enlil of the Annunaki Monarchy served as prophet of YHVH by conveying a set of common laws of the land that are still in use today in the West. A summary of that Law Covenant is found at <http://www.holyconservancy.org/2728.htm>.

YHVH (Psalm 83:18) is the Name of the HU-1 SiriusB Engineer who restored what had been "Tiamat" to Life-service after its near complete destruction only 78,000 years ago when it collided with Nibiru's regular approach, exploded and broke in pieces. In that collision, the greatest 2/3rd of its toroidal energy compartment was left standing half submerged in water and ice in the Abyss

directly under Sirius. This is why history records both a spherical Earth and a flattened one.

As is written in Genesis 1, when YHVH got here the Earth was without form and void, and it was completely dark. And step-by-step, cosmic-day-by-cosmic-day, He revived the broken world upon its toroid circulating heat and water-circulating systems.

(There's no such thing as a world that assembles itself "naturally." If you think there is such a world, describe to me how your car, which is much simpler than a world, came into existence. Yes, aggregations of matter and rock do exist at Universe leylines, but those do not constitute any survivable ecosystem.)

The First Covenant, of Adam

The first Covenant YHVH made, who had sovereignty over this world was the Adamic Covenant, in which YHVH got a commitment from Adam to care for the Garden in a certain way but avoid eating the fruit of a certain tree, as a sign of compliance. This first Covenant failed to engage the First Couple, and they were exiled.

The Second Covenant, of Noah

Among human Covenants the 2nd Covenant, Noahide Law, succeeded only in the outcome in which Noah and his family built a large boat and survived the Flood. However, the Principles of Behavior that were given to Noah were not carried forward by human societies.

While Jews are commanded to observe 254 legal principles, non-Jews are said to be expected to follow only seven principles said to be dated from the time of

Noah. Modern Zionist Judaism regards any non-Jew who keeps these laws as righteous and guaranteed a place in the world to come. However, there is no concept of Justice evident in this system of seven principles because deceit is overlooked as a cause of human conflict.

Quote:

1. Not to deny God.
2. Not to blaspheme God.
3. Not to murder.
4. Not to engage in incestuous, adulterous, bestial or homosexual relationships.
5. Not to steal.
6. Not to eat a limb torn from a living animal.
7. To set up courts to ensure obedience to the other six laws. Unquote

Let's analyze the efficacy of this group of top-down commands, placing them in the context of physical Law: ***Opposites attract***. None of these seven Rules or Laws guarantees a good outcome for anyone. Think about it causes and effects now.

Those who deny God or blaspheme God can either be praised by some or attacked by others.

Those who murder can be praised for patriotism or attacked and murdered in revenge.

Those who are sexually profligate can enjoy themselves until they die of disease or they can be murdered by others vested in purity or revenge.

Those who steal can be praised for resourcefulness or plundered by others vested in honesty.

Those who abuse animals can either profit off abuse or be abused in turn.

You see, there is nothing in Noahide Law about lying-perjury, cheating-default, trickery-fraud or insubordination, avoidance of accountability for harm, abuse or cruelty.

Number seven is crucial, that courts be set up to nullify “opposites attract” **predatory** behavior, the Law of the Jungle and the Law of Electrical attraction. IF courts did not and do not undo the Laws of Predation, no one in civil society is safe.

Later as given in the Mosaic Law, a civil court must also create a situation for a wrong-doer that is in proportion to the crime committed (“an eye for an eye, a tooth for a tooth”) for which an accused must appear, and where the outcome of any act can be clearly seen as intention either to do Good or do Harm, or be neutral and have no effect.

Noahide Law is patently insufficient to create a civil society in and of itself ... which is the entire purpose of the push toward literacy that the Patriarch Abraham fostered, and toward civil Law which was the push that Moses fostered later on.

In general, we see that a civil society is on a staircase; and each step has to do with creating good outcomes, increasing skill and preventing harm. It’s not about punishment, plunder, revenge, vigilante-ism, not-see-ism, pogroms, suppression, oppression, repression.

“God” the Creator who programs kitten-DNA to play and fish-DNA to swim is no monster, regardless

what is taught about Him by religious bureaucrats. Civil society is intended to develop in a rational way. But when Elites speak only to personal preferences--not to Wisdom of the past--the people are led away from civility and tested as to their Judgments. And so it is.

Whereas Jewish, Christian and Other Sects take their leadings from their Scriptures, often to the point of “straining at gnats and swallowing camels,” it can be said that all humans err in their belief structures because we cannot know God’s mind. Thus we are all mistaken to some extent, and we all need to be coaxed, mentored and have our behavior scrutinized and improved *in Spirit*. This is the true function of spiritual communities and the practice of prayer, to those for whom Godly behavior becomes an Eternal practice, and Life in its mastery of humility, service and thrift becomes eternal by measures of Generosity, Harmlessness and Equity which is Dominion.

I submit I have had four directions by which God has led me to this point in history: 1) my Soul by bloodline 2) God’s Grace (forgiveness for error) 3) my peers by choice and 4) this time/era in which we live, which happens to be a time of Judgment which is very harsh to confront indeed.

The Third Covenant, of Abraham, the Willingness to make Sacrifices to God’s Will for this world.—

We sacrifice our time, our resources and sometimes we give our children to do God’s Will. Abraham was

required to set off with his household, mobilize and move. He had to set his business and account to writing, which had not been required before. Now there were genealogical records and admonitions to keep record of . . . even while traveling. YHVH's human family was growing in sophistication even as they had to remain close to the ground, walking their pilgrimage. This was hard.

The Fourth Covenant, of Moses (the Adoption of a Set of Common Laws) was intended to produce a “good outcome” Monarchy for Hebrews and their Egyptian companions—not Karma, not Domination by Might, not Manipulation by Power. However, the problem of ET abductions was never addressed because this world was for a measured period of time, quarantined.

The text of this Law system is given in Section Two on page 61 of this manuscript, and it mirrors Western Common Law systems in that consent is required of those who adhere to it, and the object of its administration is the thriving of the People.

But, as we know, Israel didn't keep it; they Left their Law and as a result, Jerusalem was sacked by King Nebuchadnezzar II, King of Babylon, and the Jewish people were dragged off to Babylon to live in exile until their Messiah came or comes—whichever you wish to believe.

Seventy years later, when Israel was permitted to return to Israel, most of the Ten Tribes had already migrated into Northern Europe, especially into Ukraine,

Scandinavia and Britain; so it was a very small remnant indeed that repopulated Palestine in the Middle East when King Cyrus allowed Jews to return to Jerusalem after their exile. See Yair Davidy's *The Tribes, Israelite Origins of Western Peoples*, Hebron, Israel, not dated.

The Fifth Covenant comprised the Diaspora conditions Jews endure

. . . who were and are scattered across the face of civilization, conditions which still obtain today for those Jews still awaiting their Messiah to come lead them to a moral victory over evil and slavery.

The Sixth Covenant—of the Messiah.

But a Messiah did come, one whom Jews in general and many Gentiles still ignore and hold in contempt . . . the man-god Yeshua Ben Joseph who was born to Mary, a direct descendant of King David of Israel, which gave “Jesus” the right to ascend the Jewish throne through Mary and through adoption by his fostering father Joseph.

We have a problem with both location and chronology. The Hebrew Bible says “Jesus” was born in 3BC in Bethlehem in Palestine; but the *Kolbrin Bible* (British) says “Jesus” was born in 1072AD in Bethlehem in the North, not in Palestine. Moreover, the Northern *Kolbrin* British version says, twins were born to Mary, “Jesus” and “Judas.”

This contradiction complicates everything connected with Covenants. Did Jesus die by crucifixion, or was it Judas? Did Jesus live on to found the Merovingian

Royal Dynasty, of which King Arthur was the final root? Well, the Gospel of Barnabas, the Quran and Vatican documents say, yes, all of the above; but in truth, no diminution in the value of Covenants is wrought.

But, to get back to the Covenant of the Messiah itself, Jesus' ministry occurred at a time when political corruption was rife, and the methods He employed to confront corruption were those of Lyra and have been adopted by Peace Movements ever since: confrontation in silence, with absolute non-resistance to Evil.

Did his method work out for Peace? How many Christians have been martyred for their non-resistance to evil in the past 1400 years? How many Christians were martyred by Islam alone? Ask yourself. The number is actually in the billions of victims of jihad and pogroms of genocide upon societies that were peace-able & non-resistant.

Is this why Lyra fell in 600,000 BC? They did not resist evil, but they were later blamed for their extinction when they were told by the Christos Eloheim at Orion Nebula, "You should have known and protected yourselves from predators. Everyone knows there are predatory Races in the Galaxy," right? Have Christians today resisted the abductions of ETs or the tyranny of the State?

Christianity as taught by Jesus adopted the "Higher" Lyran Ethic just as the Essene Sect of Judaism had. In fact, John the Baptist Jesus' cousin was an Essene; and the outcome was the same each time: slaughter of its community by ideological advocates of

conquest doctrines of superiority at Masada, at Jerusalem and all over Europe.

What were Teachings that kept getting peace-able people like Jesus in trouble?

1. ***Leaders become Servants, not top-down dictators.*** Yeshua Ben Joseph (“Jesus”) demanded that his followers serve principle without resistance so that a superior long-term outcome can manifest at some future time despite experiences of suffering. In other words He did not—ever—respond in kind to 3rdD reality, to aggression, to naming, blaming, to shaming directly. In this regard Jesus taught a three step process to use in addressing difficulties or error. (*Matthew 5: 25; 18:15*)

¹⁵ Moreover if thy brother shall trespass against thee, go and tell him his fault between thee and him alone: if he shall hear thee, thou hast gained thy brother.

¹⁶ But if he will not hear thee, then take with thee one or two more, that in the mouth of two or three witnesses every word may be established.

¹⁷ And if he shall neglect to hear them, tell it unto the church: but if he neglect to hear the church, let him be unto thee as an heathen man and a publican.

¹⁸ Verily I say unto you, Whatsoever ye shall bind on earth shall be bound in heaven: and whatsoever ye shall loose on earth shall be loosed in heaven.

This is good practice to follow, to resolve difficulties without making too much of a fuss, unless the Adversary adopts violence as its method. Today, media sensationalize matters in order to manipulate social outcomes, a level of gossip that is toxic to public and private consent. In doing so, media give way to private influence-

peddling, which is also what Jesus was confronting in His day in the Roman Empire, also a mercantile Confederation based on a money system. Money corrupts all relationships, even as we speak.

There's a saying in our culture, "You cannot cheat an honest man," and Jesus' problem solving method demonstrated honesty in public by addressing any problem, first a) personally; then b) confidentially and finally c) publicly.

Naturally, Roman authorities were not delighted to be shown for the social Gamers that they were who used gossip and publicity to forge public judgments on private matters. So they resorted to violence-by-law, the same pogroms we see yet today.

2. Jesus taught a different economic system, one that bypassed national currencies: sharing. He modeled a "one purse" community where everyone was trusted and everything was shared. Those deemed untrustworthy were expelled. See *Acts 2:44*

⁴⁴And all that believed were together, and had all things common;

⁴⁵And sold their possessions and goods, and parted them to all men, as every man had need.

⁴⁶And they, continuing daily with one accord in the temple, and breaking bread from house to house, did eat their meat with gladness and singleness of heart.

The socialized nanny State has proven its inability to support populations' freedom of movement, its forbearance of ignorance due to ideology, and its dearth of cooperative skills. Based on personal indifference and

rule-baiting, the communist state merely starves everyone it touches.

In speaking to His followers privately about the Way by which His Community would come to be, He spoke of a radical approach to Behavior and Outcomes, for example:

- “Let your yes mean Yes, and your no, No!”
- “He who is faithful in what is least is also faithful in much.” Leaders are servants--not top-down dictators.
- “Keep seeking, keep your lamps lit, and notice the fig tree, how it blossoms.”
- “Do not worry about tomorrow; sufficient for each day is its own troubles.
- “Turn the other cheek” and “Do not resist evil.” The socialized State follows Occult theology and protects nothing and no one.
- “I came not to bring Peace, but a sword; for a [soul’s] enemies will be in his own house . . . Those who find their life will lose it, and those who lose their life for my sake will find it.”
- “A good tree cannot bear bad fruit, nor can a bad tree produce good fruit . . . Thus you will know them by their fruits.”

In speaking to his followers—in confidence—“Jesus” taught long-term strategies for Soul success rather than personal and financial success; however, in speaking to the priesthood of His day, He spoke about non-conformity with worldly norms—against dogma, doctrine, policy and practice of his day, which led to his being charged with and executed for sedition. See *Mark 7:6-9, 13*:

“He said to them, ‘Isaiah prophesied rightly about you hypocrites, as it is written, “this people honors me with their lips, but their hearts are far from me; in vain do they worship me, teaching human precepts as doctrines.” You abandon the commandments of God and hold to human tradition.””

An insistence on telling only objective and physical Truth rather than repeating and reciting official dogma is radical stuff demanding continual sacrifice of habit and custom. The reasons it works out for good are not readily apparent; but those are based on the postponement of satiety until manifestations can be completed. Until Revelation and Tribulations are completed, just how Christian practice based on the Teachings of Lyra and Essene spirituality has worked in the world has indeed become plain to witness: an outcome of martyrdom and slaughter over and over again, with few respites.

What is True and What is Not True.

When we speak of what happens around us, outcomes of behavior, results of actions, we are being clear about what is true, and the work of knowing is half done. Meditation is one good strategy (the emptying of the mind) for calming the nervous system; but **with what** one refills the mind is also important to consider.

When one wishes to be free of obligations or duties in order to enable Abundance or Simplicity, by adopting choices in silence and stillness, or being inactive entirely, these ascetic practices comprise one way; but seeking and learning from wise elders and writings is another way.

Folding one's hands and hoping it all works out by itself . . . lets options remain unknown and untouched. If one simply denies the rest of the Universe and God exist, then all thoughts that come to you are labeled as your own; there is no monitor function to sift and sort wheat from chaff.

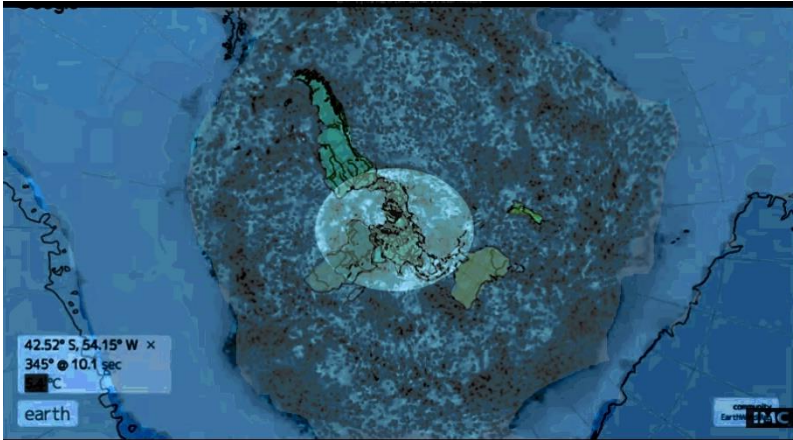

Scripture has taught readers that God wants every Soul to gain an opportunity to manage a form of Character integrity that results in eternal life with Wisdom. So let's visit the options.

What has been tried is to create Heaven on Earth by following Annunaki doctrine of influence-peddling rather than maintaining practices of truth-telling and problem-solving. But it is our practices not our beliefs that have result in what we see now: suffering chaos.

In the meantime, necessity requires that Christians bear with suffering, and they serve invisibly in the world helping others survive. But on Jesus' account, for reasons of belief, people have tended to divide into factions due to a dominating presence of Occult tenets of self-rest, self-first, obedience to popular ideology that are all part of Satanic Me-first-ism.

We have noted that Annunaki metaphysical teachings are still dominant and primary in worldly values: 1) the pursuit of money in a top-down structured economy and 2) the pursuit of comfort, pleasure and prestige and 3) the delegation of all nagging problems to others, specialists, whose entire work is devoted to a single domain of knowledge, never mind, a complete grasp of the Whole.

Okay, this is where we are, but this stance ignores the fact of Sovereign ownership of our very world, which was once Tiamat until that was broken in pieces; and now we are living in the remainder, a toroid half submerged mass in a sea of oceans, teetering on self-genocide and extinction.

The Space-Age Since 1947 Roswell

You know and I know now, ETs have always been controlling things here since the Flood of Noah’s day, by endowing humans with resources, skills and a DNA-upgrade for some of the world’s people (the Adamic-Noahic-Shemite-Jacobite-Davidic bloodlines). That’s a given. But what we do not know is about overt and covert ET interventions.

Hidden History

Next, where did the impetus of “Divine Right of Kings,” which served to conquer small fiefdoms and

consolidate those into nation-states—come from? How was the decision made—top-down—to replace those nation-states with one worldwide autocracy—a World Empire? A series of take-down decisions began with the Councils on Nicea and Trent, with the Crusades and Inquisition, with the spread of Black Death Plague, Smallpox and City fires, between 1350 and 1840.

Beginning around 1350 [with the enhanced presence of ETs of the Domain infiltrating Elite cadres, a revolution occurred in Science that overturned nearly all notions of cosmology and physics. The first of these was to trumpet this world as a spinning ball, despite Hebrew Scriptural teachings to the contrary.

Then came revisions of Scripture to censure out fourteen books and replace those with the Epistles of Saul of Tarsus. After that came top-down proscriptions against any independent thoughts on the topic of God, with Crusades and Inquisitions. After that came a mud flood in the 1600s and again in the 1900s, with attendant interruptions in literature and chronology. Indeed, today chronologists suspect our calendar may be off by a thousand years (or 1075 years if we follow the *Kolbrin Bible*). Where did the impetus come from, derive, for such changes to the records of influence and power?

Here is what I found that may lead us to know why centralized governance appeared on this world suddenly beginning in the 14th century AD. Let me now pass this on to you. It is a transcript of testimony made by an ET captured by US Army insurgents in 1947 out of the wreckage of a downed UFO over the US Southwest. In this testimony, the ET after some difficulty commu-

nicating, explains how she and her comrades came to Earth, and as incarnated human souls, took over European governance to central control in an Elite.

<https://www.amazon.com/dp/1793204039/> and the reportage was hidden in classified files until Matilda O'Donnell MacElroy, the Army nurse assigned to write down the ET's testimony, passed her manuscript down to Lawrence Spence, who published it as a framework for the question, "Are UFOs Real?" disarming its content completely and utterly ignoring the implications of what the ET reported was our correct history.

DOMAIN AGAINST ORDER : Prison Planet Earth, a synopsis of an ETs testimony. Airl testifies ::

QUESTION - "What type of society do you have?"

ANSWER - ORDER. POWER. FUTURE ALWAYS. CONTROL. GROW.

QUESTION - "Are there other intelligent life forms besides yourself in the universe?"

ANSWER - EVERYWHERE. WE ARE GREATEST/ HIGHEST OF ALL

BACKSTORY --

"The Domain" civilization controls a vast number of galaxies, stars, planets, moons and asteroids throughout an area of space that is approximately one-fourth of the entire physical universe! The continuing mission of her organization is to "Secure, control and expand the territory and resources of The Domain".

Original Ethos Airl speaking :: "Personally, it is my conviction that all sentient beings are immortal spiritual beings. This includes human beings. For the sake of accuracy and simplicity I will use a

made-up word: "IS-BE". an immortal being is that they live in a timeless state of "is", and the only reason for their existence is that they decide to "be". No matter how lowly their station in a society, IS-BE deserves the respect and treatment that I would like to receive from others. Each person continues to be an IS-BE whether they are aware fact or not.

In the case of the acquisition of Earth by The Domain, the rulers of The Domain have chosen not to openly reveal this intention to the "native inhabitants" of Earth until a later time when it may or may not suit their interests to reveal themselves. For the present time, it is not strategically necessary to make the presence of The Domain Expeditionary Force known to Mankind. In fact, until now, it has been very aggressively hidden, for reasons that will be revealed later.

PERSONAL STORY Airl speaking.. . The Domain began the installation of bases for their own forces along the path of invasion which leads toward the center of this galaxy and beyond about 8,200 years ago.

The Domain forces set up a base on Earth in the Himalaya Mountains near the border of modern Pakistan and Afghanistan. This was a base for a battalion of The Domain Expeditionary Force, which included about 3,000 members. They set up a base under or inside the top of a mountain. The mountain top was drilled into and made hollow to create an area large enough to house the ships and personnel of that force. An electronic illusion of the mountain top was then created to hide the base by projecting a false image from inside the mountain against a "force screen". The ships could then enter and exit through the force screen, yet remain unseen by homo sapiens. :

"I have been a part of the Domain Expeditionary Force in this sector of space for several thousand years. However, I have not

personally had intimate contact with beings on Earth since 5,965 BCE The last Earth language with which I was conversant was the Sanskrit language of the Vedic Hymns during the time of the Himalaya Base.

Shortly after they settled there the base was surprised by an attack from a remnant of the military forces of the "Old Empire". Unbeknownst to The Domain, a hidden, underground Annunaki base operated by the "Old Empire" on Mars had existed for a very long time. The Domain base was wiped out by attack from the Mars base and resulted in IS-BEs of The Domain Expeditionary Force being detained and processed by the Old Empire (Annunaki).

"I was a member of the mission sent to investigate the loss of that Domain base located in the Himalaya Mountains at that time. The entire battalion of officers, pilots, communications and administrative personnel disappeared and the base was destroyed by 'Old Empire' (ORION Annunaki) ships and well-hidden installations in this solar system of which we had been completely unaware. ... there were running battles between the "Old Empire" [Orion Annunaki] forces and The Domain until about 1235 AD, when The Domain forces finally destroyed the last of the space craft of the "Old Empire" force in this area. The Domain Expeditionary Force lost many of its own ships in this area during that 9K-year period."

"[AIRL's] reasons for coming to Earth [now] and for being in the area of the 509th Bomber Squadron ... I was sent by superior officers to investigate the explosions of nuclear weapons which have been tested in New Mexico [1942 on]; superiors ordered ... to gather information from the atmosphere that could be used to determine the extent of radiation and potential harm this might cause to the environment. During ... mission, the space craft was struck by lightning which caused [it] to lose control and crash.

“The space craft is built in much the same way as the [Is-Be] doll body. The bodies of each IS-BE crew member are likewise tuned into and connected to the "nervous system" built into the space craft. It is adjusted specifically to the frequency of each IS-BE crew member. Therefore, the craft can be operated by the "thoughts" or energy emitted by the IS-BE. When the lightning bolt struck the space craft this caused a short circuit and consequently "disconnected" them from the control of the ship momentarily which resulted in the crash.

AIRL'S CONCLUSION :: “On Earth today, the ability to determine who is an ET incarnate and/or when an IS-BE has first entered the physical universe is difficult to determine, for two reasons: 1) the memory of IS-BEs on Earth have been erased, and 2) IS-BEs arrival or invasion into the physical universe took place at different times, Every once in a short while, an area or planet will be taken over by another group of IS-BEs entering into the area. Sometimes they will capture other IS-BEs as slaves. They will be forced to inhabit bodies to perform menial, or manual work -- especially mining mineral ores on heavy gravity planets, such as Earth.

“HERE in the same fashion as all other IS- BEs who have been sent to Earth : they were each given amnesia, had their memories replaced with false pictures and hypnotic commands and sent to Earth to inhabit biological bodies. They are still a part of the human population today.

[MATILDA SPEAKING] :: “She told me that Earth scientists do not have an accurate measuring system to gauge the age of matter. They assume that because certain types of materials seem to deteriorate rather quickly, such as organic or carbon-based matter, that there is a deterioration of matter. It is not accurate to measure the age of stone, based on the measurement of the age of wood or

bone. This is a fundamental error. Factually, matter does not deteriorate. It cannot be destroyed. Matter may be altered in form, but it is never truly destroyed. Every form and substance is made of the same basic material, which never deteriorates. End of Synopsis.

Domain crews were captured from 9th century BC until 13th century AD; among them were some forty-six fundamental Sylph personalities with Cosmic and Eternal gifts. These Domain Is-Be's who crashed here up until the Dark Ages, proceeded to create the Renaissance, and to renew and restore the ancient Tartarian architectural gifts in sacred geometry and Occult Science. Voila. Now we know from where the Renaissance – and all its wars, crusades, inquisitions and drama, derived.

But there's was and is a problem: Amnesia wiped out the Ethos of the Domain and replaced it with the Ethos of, "Aren't we having fun yet?" which Robber Barons, NeoCons and Illuminati pursue to this day. The Domain provided Earth with an Elite Race [now, Illuminati] who out-gun, out-think, out-create and out-manuever the Rest of Humanity; and their collective DREAM is another Hive Mind running everything. And that's where the New World Order comes from.

How I know this? I was one of them, originally from Sirius A. The Annunaki (fun-loving as they are) originated in the Pleiades.

Then, After the Renaissance.—when political power had been consolidated by Elites and Occult practitioners, in the 18th century the Illuminati came

together. And with the dereliction of Queen Victoria's reign in Covenantal Monarchy after Prince Albert's death, they decided to take matters into their own hands. They would prosecute an Apocalypse and consolidate power for all time.

In 1871 the Masonic Order realized Queen Victoria had lost her marbles over the death of her beloved Albert, she also lost control of her own mind at that time. So, the British took to warring—the Boer War, George V toppled his own King-cousins, consolidated the Rothschild banking combine, sent Zionism to conquer Palestine, founded and funded *Tavistock Institute* to conquer working people with propaganda and treachery and to generally undo the very Monarchy that had civilized the world a century before known as the Commonwealth. Thus from WWI onward, our world has been in chaos, with predatory [Illuminati] minds in charge.

Enter Germany in the 1920s led by Fascist industrialists listening to Occult mediums channeling how to build saucer-craft after the style of Annunaki hardware. Indeed, [Orion] Annunaki designs have dominated the Space Industry from the beginning.

The Political Use of Scientism, 1921-2021.—

Tavistock Institute was founded in the UK by Kaiser Wilhelm and King George V of England, and funded out of Royal purses in order to parse the psychology of WWI. Stanford Research International followed on shortly thereafter; and with graduates from the German Operation Paperclip in 1945 after World War II, the

Allies set about to conquer this world, top-down, from the psychological perspective, in two fields :: rocketry and psychiatry. Kinsey explored the sexual exploitation of children and adults in the 60s.

In order for these studies to proceed, the doctrine and official dogma of Evolution (not historical records of human origins) had to be taught universally; secular materialism became the official philosophy of choice in most private and public universities and colleges.

Historical records that didn't fit the narrative were destroyed by the Smithsonian Institution, officially : Giants, Bigfoot, extra-terrestrials and underground cultures were officially banned from being taught. Contemporary Technology was trumpeted, and the arcane free energy work of Nicola Tesla was buried.

Backstory.—US-UFO History.—1942

Enter Roswell, and the concerted effort by Tavistock-led Fascist leadership to hide our ET relationship, their presence and our cooperative efforts to build defense systems to defend Earth.

Enter ETs into the United States' airspace, 1942, 1952 and ever since.

Enter 1947 the National Security Agency and NASA populated by German Operation Paperclip members, and the Majestic12 Committee to clamp down control over ET-treaties, relationships and public knowledge. At that time, the DEEP STATE was born which Eisenhower characterized as the "military-industrial complex," and which Kennedy deplored as the agencies of secrecy that would control the nation without the knowledge or consent of the people, forever.

In 1954 President Eisenhower did the unthinkable: he signed on to the Greeda Treaty, which simply restated

the El-Anu Treaty. (See Michael Salla's report at exopolitics.org or also at

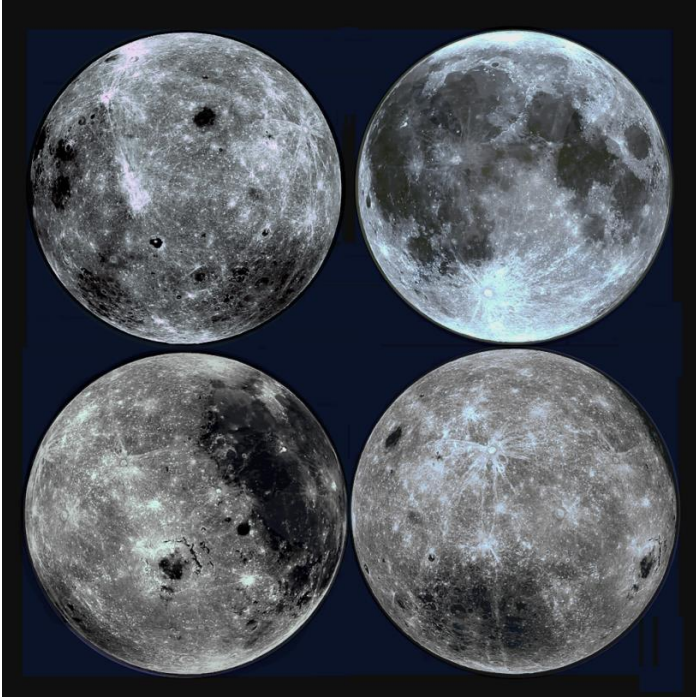

<http://www.abidemiracles.com/56789.htm>, mirrored and reprinted).

This Treaty allowed ET-abductions for reproductive research, for food, for slaves; and in return, the ETs would provide advanced defense and offensive technology. Bully, bully for those guys, eh? Never mind, the USA claimed to be a Republic in which governance was directed by the governed themselves.

I personally was abducted and experienced 12 hours of missing time in Minnesota during 1953, at age 9. For ten years after that I experienced random fainting spells; and eventually decades later, three implants emerged out of me—just popped out of my skin. But doctors of course knew and know nothing about this. And in this way, with “nobody knowing nothin,” the Secret Space programs thrived.

In the 60s after the assassination of Kennedy, NASA's Moon Mission was deployed culminating in teevee presentations from 1969 to 1972; but nobody ever introduced a Moon man or woman to the American public, because there weren't supposed to be any. The Moon was supposed to be vacant, so that NASA could claim it under the Laws of Discovery.

Our Moon is not what they tell us or show us; and why this is so is because and due to the fact, telescopes are set up only to develop white light hues : red, green and blue. Thus all dark matter images remain undeveloped. I give away a free Moon Book on-line, for anybody to see for themselves, peruse and browse. Link:

Why do I do this? Giving away my work is a statement that I deplore the extent to which this “Coverment,” Text and Social Media and Academia are lying to us all about Science and morals.

In the 1960s we all witnessed Apollo Missions, and then the Magellan, Clementine, Cassini and other flybys. All the while official doctrine continued to claim there is never anybody Out There, nobody to talk about.

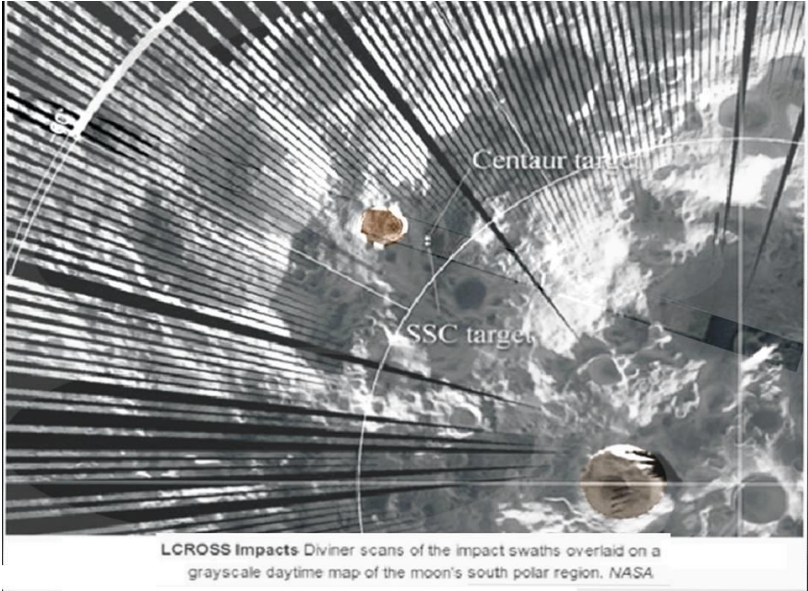

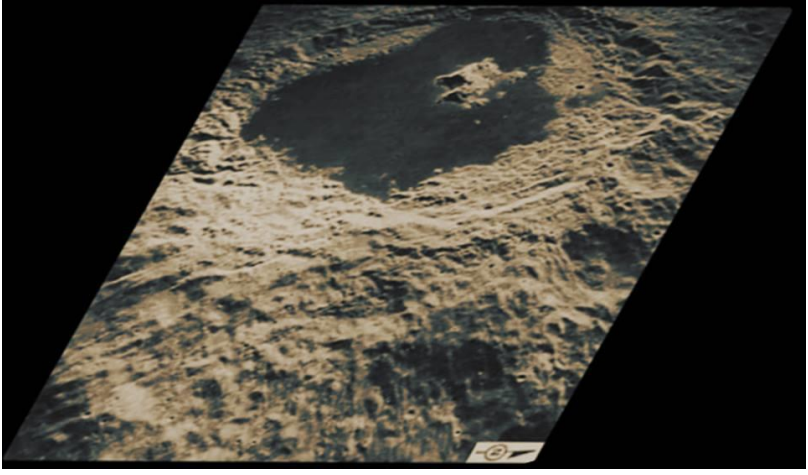

And all the while nobody in the Law Profession spoke up about human trafficking, drug-, gun- and slave-

running carried on by official and government alphabet agencies, for money-laundering purposes, to finance space research. This was due to Legalist arguments to the effect that secrecy in government activities and funding was perfectly appropriate, arguments coming from the large proportions of lawyers and legislators who were Masons or Illuminati.

Furthermore, as part of the Treaty Terms and Conditions all mention of ETs and ET commerce would remain classified secret. In addition, new compartmentalized defense contracts guaranteed that funding would flow to “need-to-know,” “confidential” and “top secret” projects out of the public’s chain of command. Anyone who brought evidence forward for disappearances or conspiracies was CIA-labeled a “conspiracy theorist” for telling the truth about what they witnessed.

Apollo & Clementine proved we were being lied to.

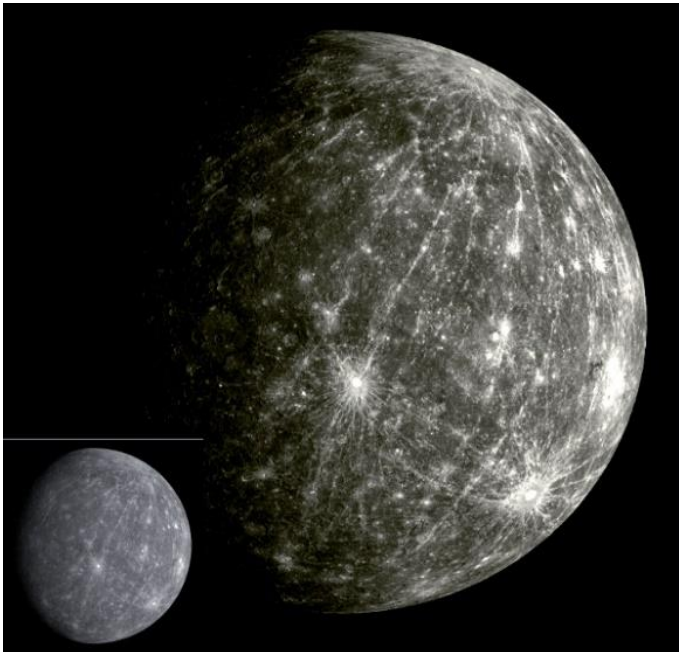

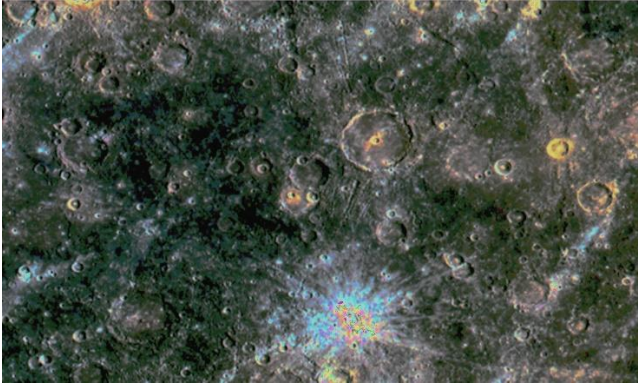

And then Oct 9, 2009. NASA bombed the South Pole of our Moon, “to look for water.” In the process they poked a hole in the Moon’s southern water reservoir, and killed a score of inhabitants. It doesn’t take rocket science

to locate human forms in this lunar image of the incoming rockets, an image NASA is quite proud of.

THE OTHER PLANETS.-- Other Missions followed, to Venus, Jupiter and Saturn, outer Planets, Moons and Asteroids. And the official doctrine remains that all these planetary and lunar bodies were and are vacant. Mars of course was and is a special case because so much attention is paid to the political doctrine of the Law of Discovery and the intention to just go own Mars as if that world doesn't already belong to someone. Phobos, Mar's Moon, is also accused of being vacant.

MERCURY.—The planet closest to the traditional Sun is characterized as being hostile and vacant. Looks busy to me with geometric shapes visible. :shrug:

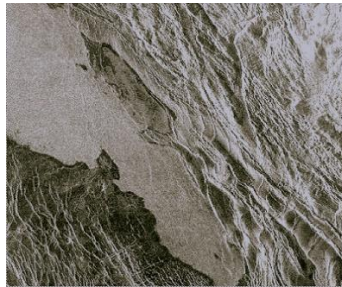

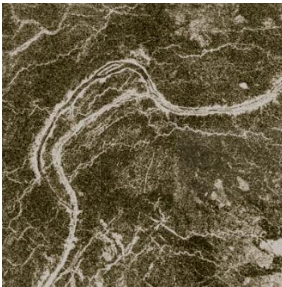

Mercury doesn't look dead once UV spectrum hues are added.

VENUS is depicted as red hot and toxic. But when the images are re-rendered in neutral tones, a different impression emerges. This is what they want us

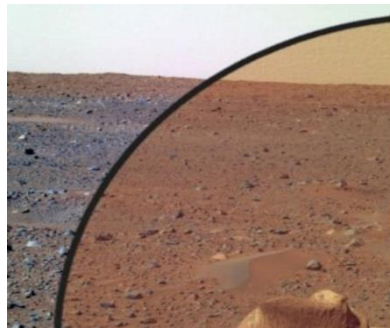

to believe it looks like : hostile and uninhabitable. But when colors are rendered as NEUTRAL, a different world emerges.

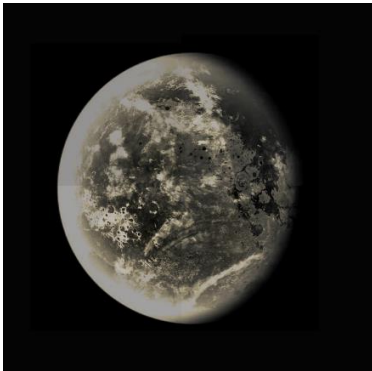

Hot and toxic, eh?

Mars.—Let me give you a little intro here. I became interested in Mars in 2007 when this image was published with impossible, phony hues, a paint-over.

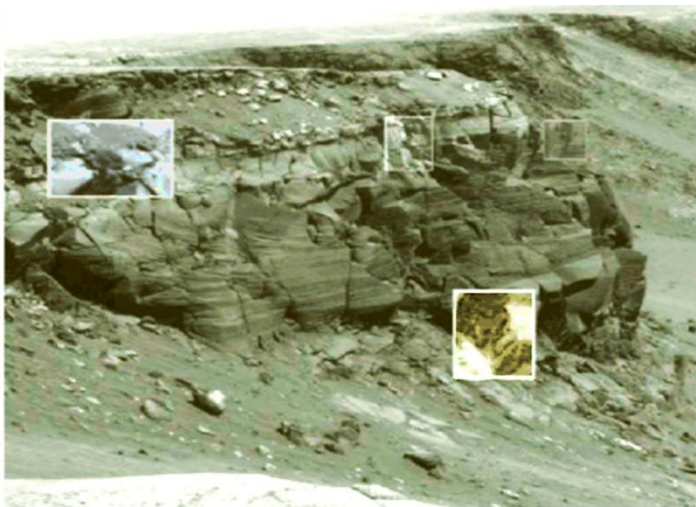

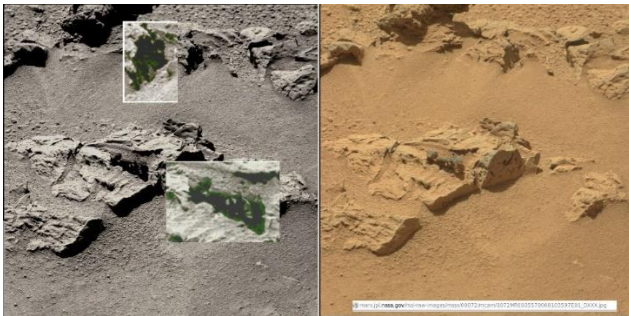

So I began collecting Mars images. I have about 10,000 of them in folders. They're all phony; so let me start by showing you *NON-phony* images I found, including the infamous color filter that was used on all these flat horizons.

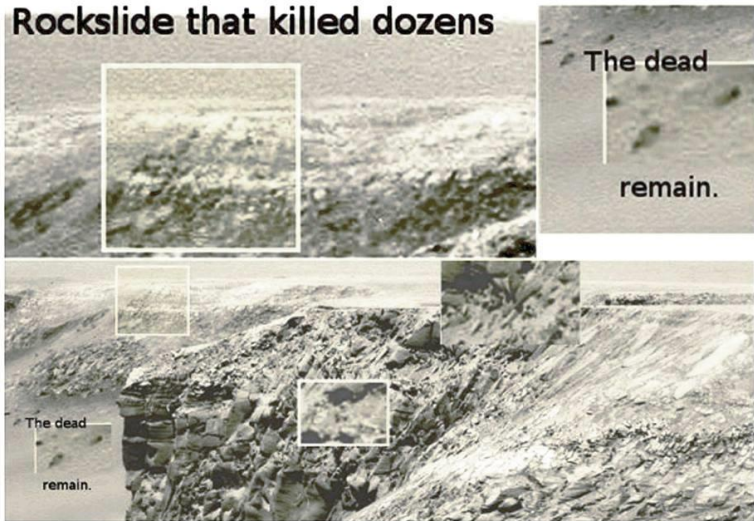

What these images have in common is this : MARS is a very “tight” sphere, small as our Moon is. As such, there is NO flat horizon on this sphere. Looking at a tight sphere all we see is a “wall” in front of us, NO flat spaces with the exception of the North Pole.

Apparently NASA has something wrong with their estimates of size and distance, right off the top.

Next ALL, every single one of the Rover images, Spirit, Opportunity and Curiosity are developed on a FLAT PLANE, flat as a pancake. So, where were those images taken? You tell me, with their red filter applied.

Rockslide that killed dozens

Summer 2007

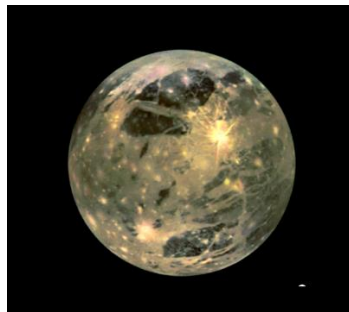

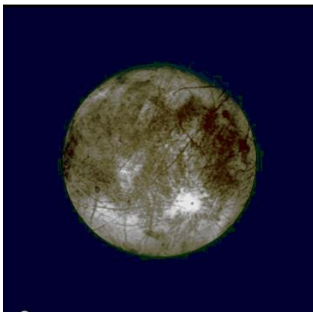

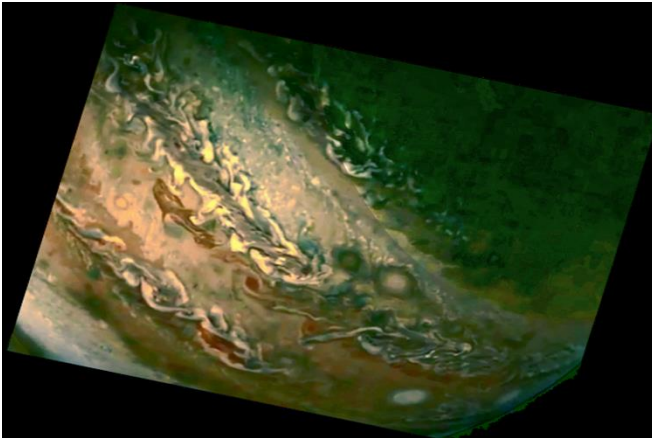

Were we involved in a war there at Cape Verde? Yes, on November 11, 2007.

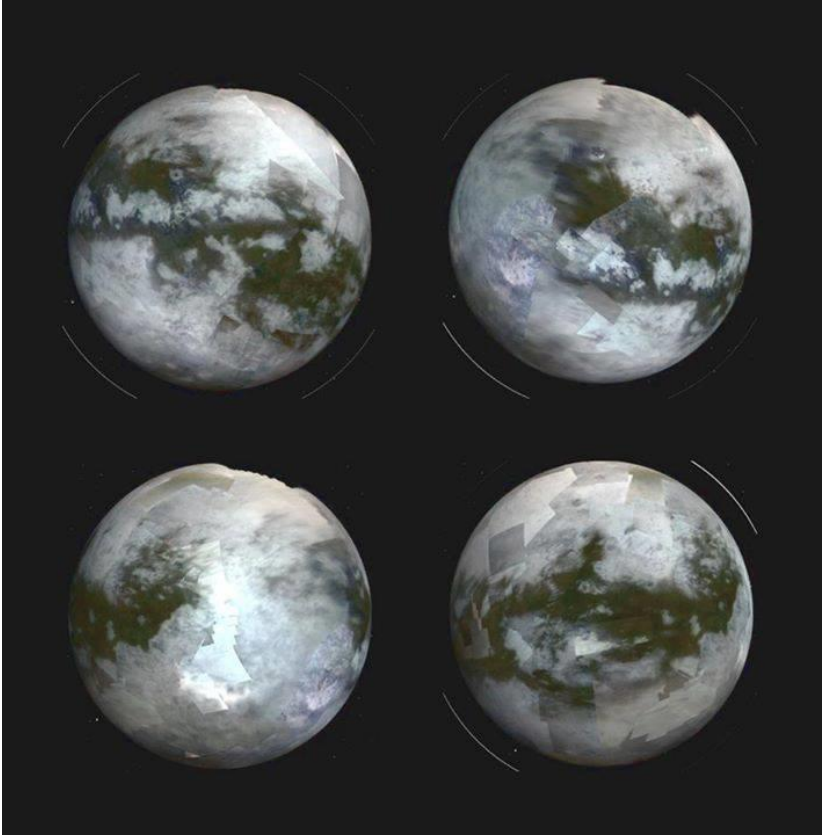

Jupiter.—Again, size is an issue. No way is Jupiter as large as NASA says if you simply look at the scale of artifacts and lifeforms.

To make Jupiter even more complicated, skuttlebutt has it that Jupiter has been completely destroyed; but NASA does not report, deny, confirm or repudiate this report. So what are we who examine the images to do or think? There is no guidance as to what is actually true. But Jupiter was not dead the last time it was imaged.

Jupiter's Moons, Ganymede and Callisto are both transparent; Europa is partially transparent; and Io appears to be composed of solid metal, from its color.

Titan the Moon is drop-dead gorgeous natural ecosystem. But NASA text doesn't say any of this. As you can see, there's a lot going on out there, we down here are not being told about ... Not to mention, Saturn's moon Titan. These moons do not appear lifeless to me.

This is NASA's image of Titan from Cassini Group. So, what we the people get in terms of information relative to space is not what is true. But we knew it wasn't the whole story. How many of us cared enough to protest and object to omissions?

Continuing through the 80s, 90s and on into Y2K reports of disappearances, yes, investigators were disappeared, astronomers, microbiologists, and people visiting National Parks, by the hundreds vanishing. Dr. Karla Turner, Ph.D., homicide detective Butch Witkowski and detective David Paulides could hardly keep up with the statistics; but Federal agencies had no such info. In fact, even mortality tables and food nutrient tables have been fuzzified and become difficult to interpret due to the official practice of making real information secret.

The corporate practice of polluting consumables has become routine: fluoride and Lithium in drinking water, mercury in vaccines, dangerous sweeteners, colorings and plastic additives in food. And so it becomes evident to ETs who are abducting and coring out the intestines of cattle that humans are sickening and dying, as are cattle, fish, birds, bees, whales.

An entire river in Ghana, Africa, is being used as dumping ground for old worn out computers, their toxic plastics baking in the sun. I wonder whether Official-dumb realize what they are doing is planetary omnicide, don't you?

And it started when the El-Anu Treaty said, "Races were/are sacrosanct with superior races and inferior races; with ideological purity and a hierarchical and bureaucratic system of influence that guaranteed top-down rulership." That's the New World Order, you know, "top-down rulership," that Queen Victoria and King George V initiated in order to bring society into harmony with Galactic Policy about Race and Rulership.

Reports of ET and Covert experiences were published as loose papers; but conventional publishers refused to touch them. This author, concerned about how little the public was aware of the ET factor, published The Red Pill Trilogy

If you're not angry by now, what's wrong with you? So where is this actually going?

Rev. 11:18 :- And the nations were angry, and thy wrath is come, and the time of the dead, that they should be judged, and that thou shouldest give reward unto thy servants the prophets, and to the saints, and them that fear thy name, small and great; **and shouldest destroy them which destroy the earth.**

This matter is literally going on over our heads; and you and I are not going to be able to do anything about it except try to survive a sequence of events before us we must confront. Nibi came back in 2011.

Such images as these astronomers' images show up over astronomical observatories all the time in plain sight; but people don't notice them, so Secret Operations get away with selling people off. (You can read the dates of these images, and these are all since 2016.) This is

another reality that is not being talked about publicly. But go look for yourself.

So what do “Gods,” the Angels and the Annunaki all together with Greys and BigFoot and the whales and elephants, dolphins and all the intelligent animals and birds—plan to do? Are we all just going to permit everything to die? Are we just going to allow this world to be destroyed?

What did Abraham do? What did Moses do? What did Jesus do? What would you personally do if a mercenary mafia moved into your neighborhood?

- We're in that middle circle on this flat map; Antarctica is settled under ET Treaty anyway, so none of us is allowed to go there.

- This world already has a dome over it to conserve atmosphere; and the Moon above has many canopies, lots of vegetation. What is our Moon's actual history?
- It's inside the Dome; so is this artificial Sun, going. What about the canopy of stars?

The El-Anu Treaty has been abrogated, but the Greada, TauX, and TPP Treaties continue to threaten mankind with an over-dominant corporate cartel bent on trans-humanism and psycho-controls *in the Cloud*.

And so, we ask :: Will ET's, the Annunaki or Draco or Domain who conquered our world, socialized our peoples and who suffer now with us, deliver Humanity from Slavery, trafficking and misery that has been the lot of every human in this Galaxy touched by the El-Anu Treaty for the past 600,000 years?

ONLY IF the cartel is broken.

That would make them—ETs—our Friends after all, wouldn't it? I think so, after all.

I hope you have enjoyed this little foray into our near-Earth neighbors, who are kept secret from our knowledge and recognition. Yes, the Title really doesn't have any content or merit; but it sounds nice. What the hell? This is a freebie. Believe what you wish.

Please share this free eBook with young people, your children, the people you care about. Everyone in this nation wants to know what is true; and just so much is kept from us. It's not fair.
